

PTF Solid Traditional Floor

- Nothing captures the enduring qualities of solid timber like Mother Nature intended, transferred through the hands of our skilled timber craftsmen to create bespoke flooring for your home
- PTF sources the best of local Australian and International timber species as part of our exciting innovative range of timber flooring products to suit your home and climatic conditions
- As a natural product, as every piece of timber is individual and becomes an enduring, character filled investment that continues to develop over time
- Our variety of timber species compliment a modern stylish look that contrasts a busy lifestyle with classic materials
- Natural timber is both a strong and durable flooring system, but also has the soft under-foot feel that is both warm in Winter and cool in Summer
- Timber is easy to install and maintain - providing an allergy free alternative to carpet
